Re: Nevada FY 2015-2018 Statewide Transportation Improvement Program Approval

Dear Mr. Malfabon:

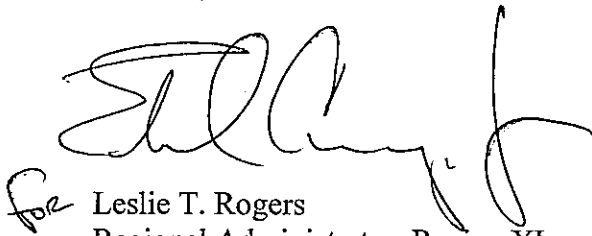

The Nevada Department of Transportation (NDOT) submitted the referenced Statewide Transportation Improvement Program (STIP) and copies of the associated MPO TIPs on December 15, 2014. In accordance with provisions of 23 CFR 450, the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) hereby approve the referenced STIP with one noted deficiency due to the lack of an ADA transition plan.

According to 23 CFR 450.218 the STIP certifies that the transportation planning process is being carried out in accordance with all applicable requirements of the Americans with Disabilities Act (ADA). A current ADA transition plan is one of the applicable requirements. FHWA and FTA are aware that NDOT is currently in the process of developing a plan. It is expected that substantial progress on the update of the plan will be completed prior to approval of the next STIP.

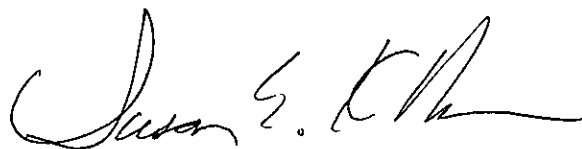

This approval does not constitute an obligation of funds. Authorization to proceed with the implementation of individual projects will be in accordance with existing procedures. Amendments to the STIP that do not involve both FTA and FHWA funds or a revised air quality conformity finding, may be forwarded to the appropriate Federal agency (FTA for transit projects and FHWA for highway projects) for their action. Both FHWA and FTA will act upon all amendments requiring a new air quality determination.

In accordance with 23 CFR Part 450.216, please notify the Metropolitan Planning Organizations in Nevada of this STIP approval action. If you have any questions regarding this approval action, please contact Ted Matley of FTA at 415-744-2590 or Christina Leach of FHWA at 775-335-1916.

Sincerely,

for Leslie T. Rogers
Regional Administrator, Region XI
